5. Name the thermometer in which no liquid is used.

[19/07, 7:01 pm] Prtima Tripathi Pps: H.W for 20/7/2020

Reading

A. Based on your reading answer the following questions:

I found a four leaf clover

And was pleased with my find.

But with time to think it over

I have entirely changed my mind.

I concealed it in my pocket,

Safe inside a paper pad,

Soon much swifter than a rocket

My good fortune turned to bad.

I broke my brand new glasses,

And I could not find my keys,

I stepped in spoilt molasses

And was stung by angry bees.

When the kitten ripped the curtain,

And the toast burst into flame.

I was absolutely certain

that the clover was to blame .

I buried it discreetly;

In the middle of a field.

Now my luck has changed completely ,

And my wounds have almost healed.

If I ever find another,

I will simply let it be ,

Or I will give it to my

brother,

He deserves it more than me.

I. Tick the correct option:

a) What is the rhyme scheme in first stanza?

A)AABBCCDD

B)ABABCDCD

C)ABCBABCB

D)AABBAABB

b) How is the speaker feeling in first stanza?
