SCIENCE: Answer the following in C.W copy

Ques b) what are the stages of a butterfly's life cycle?

Answer The butterfly has four stages in its lifecycle.

Stage 1- a female butterfly lays eggs on leaves

Stage 2- As the egg hatches a worm like creature known as caterpillar comes out .It starts eating leaves and also shed its skin four or five times.

Stage 3- Caterpillar changes itself into a pupa .its like a covering in which the caterpillar changes into butterfly.

Stage 4- as the butterfly grows the case around the pupa splits open, the butterfly waits for its wings to dry and to take a flight.
