

SOCIAL SCIENCE(HISTORY)

Ch-1 The French Revolution

* Questions with Answer...

Q. What was the Estates General?

Ans. The Estates General was a political body to which the 3 estates sent their representatives. This was the body which had the power to pass or reject the proposals for new taxes made by the monarch.

Q. What was the importance of the declaration of the Rights of Man and Citizen under the constitution of 1791 of France?

Ans. The Rights of Man and Citizen established rights such as the right to life, freedom of speech, freedom of opinion, equality before law as natural and inalienable rights i.e. these rights belonged to each human being by birth and could not be taken away. It was the duty of the state to protect each citizen's natural rights.

Q. What were the causes of empty treasury at the time of Louis XVI?

Ans. i) Long years of war had drained the financial resources of France.

ii) There was the cost of maintaining an extravagant court at the immense palace of Versailles.

iii) France's involvement in the American war of independence against Britain had added more than a billion livres to a debt which had already risen to 2 billion livres.

SCIENCE (BIO)

Chapter-diversity in living being.

1.... write down the general characteristic of kingdom plantae.

2... differentiate between cryptogamae and phanerogamae.

3.... why bryophytes are called amphibians of the plant Kingdom ?write down the general characteristic of bryophyta

4... write down the general characteristic of thallophyta.

ENGLISH

Literature (The Road Not Taken)

Questions

1. Where does the traveller find himself? What problem does he face?

2.Is there any difference between the two roads as the poet describes them

(i) in stanzas two and three?

3.2. Discuss what these phrases mean to you.

(i) a yellow wood

(ii) it was grassy and wanted wear

(iii) the passing there

(iv) leaves no step had trodden black

Note:- Write down these question with answers in your rough note book first. Then next day correct answers will be provided.

class - IX (maths)

21/may

Real numbers

- 1) Rationalise the denominator of $\frac{2+\sqrt{3}}{2-\sqrt{3}}$ then find the value of $a+b$ in given equation

$$\frac{2+\sqrt{3}}{2-\sqrt{3}} = a+b\sqrt{3}$$

Soln :- $\frac{(2+\sqrt{3})(2+\sqrt{3})}{(2-\sqrt{3})(2+\sqrt{3})} = a+b\sqrt{3}$

$$\frac{(2+\sqrt{3})^2}{2^2 - (\sqrt{3})^2} = a+b\sqrt{3}$$

$$\frac{4+4+4\sqrt{3}}{4-3} = a+b\sqrt{3}$$

$$\frac{7+4\sqrt{3}}{1} = a+b\sqrt{3}$$

$$7+4\sqrt{3} = a+b\sqrt{3}$$

compare both side

$$\boxed{a=7}$$

$$\boxed{b=4}$$
