

H. W for Class - 12 B

Date - 13/5/2020

### Biology

Q.1. How many sperms will be produced from 10 primary spermatocytes and how many eggs will be produced from 10 primary oocytes?

Q.2. Write the location and function of the sertoli cells in humans.

Q.3. Why are male testes located outside the abdominal cavity?

Q.4. Define parturition.

Q.5. Where do we find fimbriae?

### Chemistry

Topic : Haloalkanes and Haloarenes.  
haloalkanes from alcohols.

1. Describe various methods of preparation of  
2. Why do alkyl halides undergo nucleophilic substitution  
reactions ? 3. Why dehydrating agent are not used for the preparation of tert. Chloroalkane
